

The Geographic Region from which RSFWF accepts applications each year will be clearly defined. Preference is to be given to North County projects. Current boundaries for grant recipients are based on where the project operates not the non-profit headquarters. The Northern Boundary shall be Camp Pendleton and south, the Southern Boundary shall be Downtown San Diego. The Eastern Boundary starts at Fallbrook, follows State Route 76 to the east until it intersects with State Route 78, then west through Ramona until it meets Interstate 15, then west of Interstate 15 up to and including Downtown San Diego. See map for final arbitrar of location. North County is defined with the same north and east boundaries but the southern boundary being State Route 56. See map provided.
